SPECIAL ISSUE ON POTENTIAL APPLICATIONS OF BIOINFORMATICS IN BIOLOGICAL SCIENCES –PABBS 2022 (Volume: 9, Issue: 5(1), May, 2022).

CONTENTS

S.No	Articles	Page No
1	<i>In silico</i> analysis of AMMECR1 protein-protein and its phylogenetic interaction Jeyabaskar Suganya, Nishandhini.M, Mark Antony. J , Rajesh Kumar.G, Mahendran Radha	1-11
2	Screening of Biological Activities through QSAR analysis of bioactive molecules of <i>Cardiospermum halicacabum</i> Jeyabaskar Suganya, Nishandhini.M, Sridevi.J, Rajesh Kumar.G, Mahendran Radha	12-22
3	Computational assessment studies of antiviral drugs against Spike Surface glycoprotein using Bioinformatics Tools Jeyabaskar Suganya, Anburaj.R, Rajesh Kumar.G Mahendran Radha	23-33
4	Computational Screening of Differential Gene expression on Intracranial Tumor microarray Dataset with GEO2R Jeyabaskar Suganya, Nishandhini.M, K.Eswara Moorthy, Rajesh Kumar.G, Mahendran Radha	34-42
5	<i>In silico</i> modeling and molecular docking insights of hesperetin against cancer- target VGFR2 Nishandhini.M, Jeyabaskar Suganya and Mahendran Radha	43-49
6	<i>In silico</i> metabolic pathways analysis of <i>Candida albicans</i> for potential drug targets and their interactions with drugs Nishandhini.M, Jeyabaskar Suganya and Mahendran Radha	50-61
7	Molecular docking studies of secondary metabolites of <i>Phyllanthus niruri</i> against adipocyte fatty acid-binding protein aP2 Jeyabaskar Suganya, Nishandhini.M, Fyrose. M, Rajesh Kumar.G, Mahendran Radha	62-70
8	Thymol from <i>Trachyspermum ammi</i> as potent inhibitor for Protein Tyrosine Phosphate: <i>In silico</i> Analysis Jeyabaskar Suganya, Gowthami.U, Rajesh Kumar.G, Mahendran Radha	71-78

9	<i>In silico</i> Analysis of Gestational Trophoblastic Disease Molecular Docking and Modelling R. Priya, M.Vinoth, Mahendran Radha	79-88
10	Role of changes in SARS-CoV-2 spike protein in the interaction with the human ACE2 receptor: An <i>in silico</i> analysis Role of changes in SARS-CoV-2 spike protein in the interaction with the human ACE2 receptor: An <i>in silico</i> analysis R. Priya, M.Vinoth, Mahendran Radha	89-97
11	<i>In silico</i> analysis of polystic kidney disease using molecular docking and virtual screening R. Priya, M.Vinoth, Mahendran Radha	98-107
12	Single nucleotide polymorphism and structure analysis of cleft palate R. Priya, M.Vinoth, Mahendran Radha	108-118
13	RPIA (ribose 5-phosphate isomerase A) - [Homo sapiens (human)]-Genomic analysis and structure prediction M.Vinoth, R. Priya, Mahendran Radha	119-133
14	<i>In silico</i> analysis of cystic fibrosis and Molecular docking and modeling M.Vinoth, R. Priya, Mahendran Radha	134-151
15	Analysis of Viral Genome which encodes Non-structural proteins of COVID- SARS-coV M.Vinoth, R. Priya, Mahendran Radha	152-161
16	Comparative Structural Analysis of CFTRABCC7in Human and Rabbit M.Vinoth, Dr. R. Priya, Mahendran Radha	162-172
17	<i>In silico</i> QSAR studies on Indian medicinal plant of <i>Coriandrum sativam</i> (Coriander) and <i>Centella asiatica</i> (Gotu Kola) as fungal inhibitors. Mahendran Radha, Jyothsana Madhavan, K. Eswaramoorthy, A. Jyotsna, Jeyabaskar Suganya, R. Priya, M.Vinoth, Nishandhini. M.	173-184
18	Protein-protein interaction study associated with epilepsy and migraine Mahendran Radha, S.Aishwarya Devi, A.Jyotsna, R.Priya, M.Vinoth, Jeyabaskar Suganya.	185-197
19	Computational docking studies of the Parkinson disease protein(parkinson disease protein 7(park7)) Mahendran Radha, K. Eswara moorthy, A.Jyotsna, Jeyabaskar Suganya, R.Priya, M.Vinoth.	198-204
20	Structural analysis of thylakoid-bound ascorbate peroxidase (tAPX) from <i>Oryza sativa</i> Mahendran Radha, Vasanthakumari. J, R. Priya, M.Vinoth, Nishandhini. M. Jeyabaskar Suganya	205-210
